

Please mention the report is for V1 or V2

Bugs: Report for V2:

(Rahat)

Log in	OTP does not send in the phone number but it shows in the OTP verify screen.
Changing Number	After giving the new number, OTP didn't come & can't be verified. But after logging out, I tried to enter a changed number and it did not work. There's no OTP resend option.
Covid-19 Form	Should have to notify user about form submission & Need a home button after a successful message . (Client end) -backend team
Track Order	UI crashed for a mobile app, it seems like a website view. - backend team
Order Creation	SMS will not be received by the user. For Cash On Delivery & Bank Payment, it shows connections timed out, and nothing happens. But in Order shows that order already placed without any concern. -backend team
Cancelling Order	SMS won't be received by the user. - backend team
Search Filter	sorting feature doesn't work at all. - backend team
EkShop Agent	For this, it's don't need a product search bar. And when inputting a phone number, the input box doesn't show all numbers. - backend team
Campaign	Have to check campaign lists spacing & it should be beginning. - - suggestions
Feature Product Filter	Filter doesn't work specially sort by filter. - backend team
Product icon/image	In the category list's categories icon in UI and partners

	list products images are not loaded.
Specific product Store	In a product mentioned the stores name like evaly.com.bd and priyoshop etc but when clicking these store names nothing shown about the stores. But it should show the stores all products.
