Ekshop Mall: Fail

Test Case	Purpose	Steps	Expected Result	Actual Result	Status	Recommendation
Ekshop Mall	Ekshop Mall	<ul style="list-style-type: none"> Click the ekshop mall and show the list of shops 	show the list of shops in the mall	It doesn't work at all.	Fail	Have to check ekshop mall option

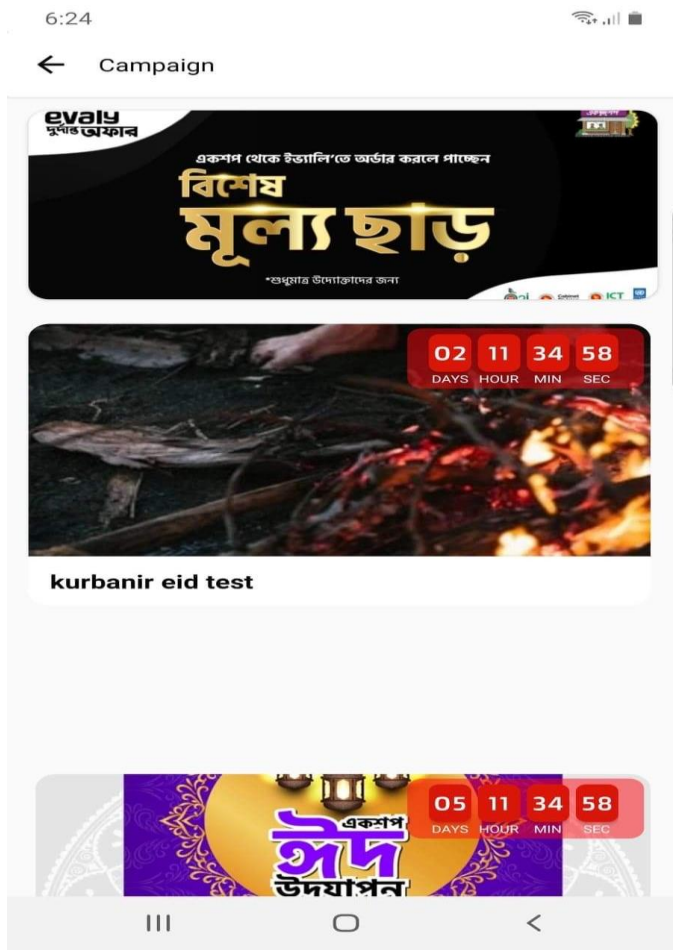

Ekshop Services: Failed

Test Case	Purpose	Steps	Expected Result	Actual Result	Status	Recommendation
Ekshop Service	Ekshop service	<ul style="list-style-type: none"> Click the ekshop mall and show the list of services that ekshop provides. 	Show the list of services that ekshop provides.	The path doesn't work at all. At least not shown that empty for now.	Failed	Have to check ekshop Service option

Campaign: Fail

Test Case	Purpose	Steps	Expected Result	Actual Result	Status	Recommendation
Campaign	Campaign	Click the campaign and show the campaigns.	show the campaigns.	Campaign list shown, but between two campaign there's a big gap.	Fail	Have to check campaign lists spacing.

Image:

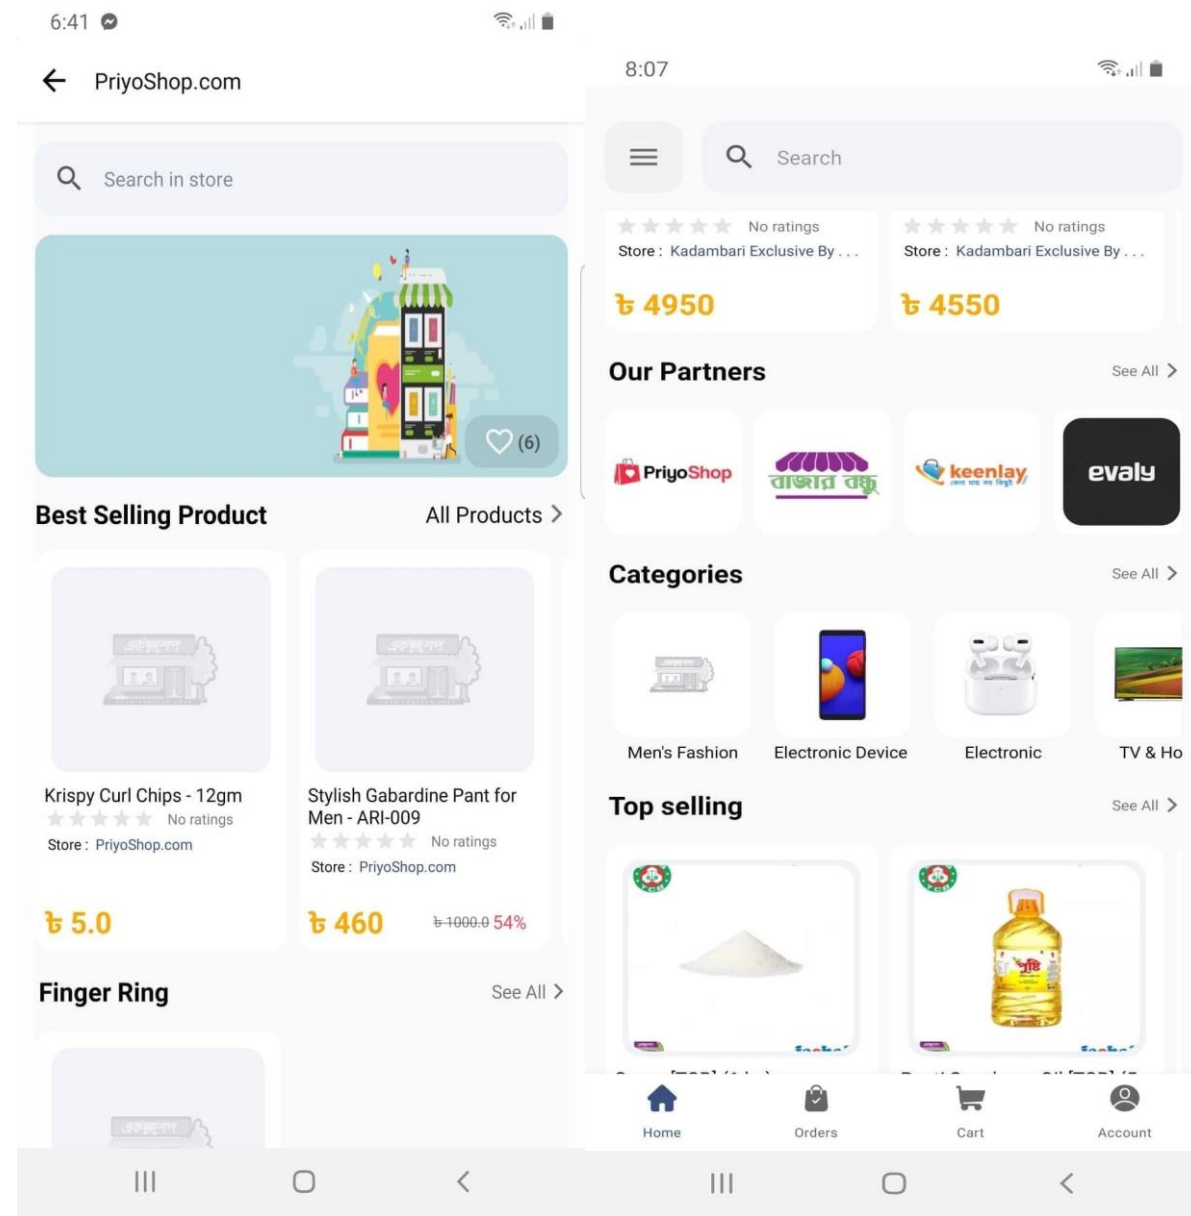

Feature Product Filter: Fail

Test Case	Purpose	Steps	Expected Result	Actual Result	Status	Recommendation
Feature Product Filter.	Feature Product filter.	Click the feature product and then click filter for filtration.	show the filtered product.	Filter doesn't work specially sort by filter.	Fail	Have to check Feature Product Filter.

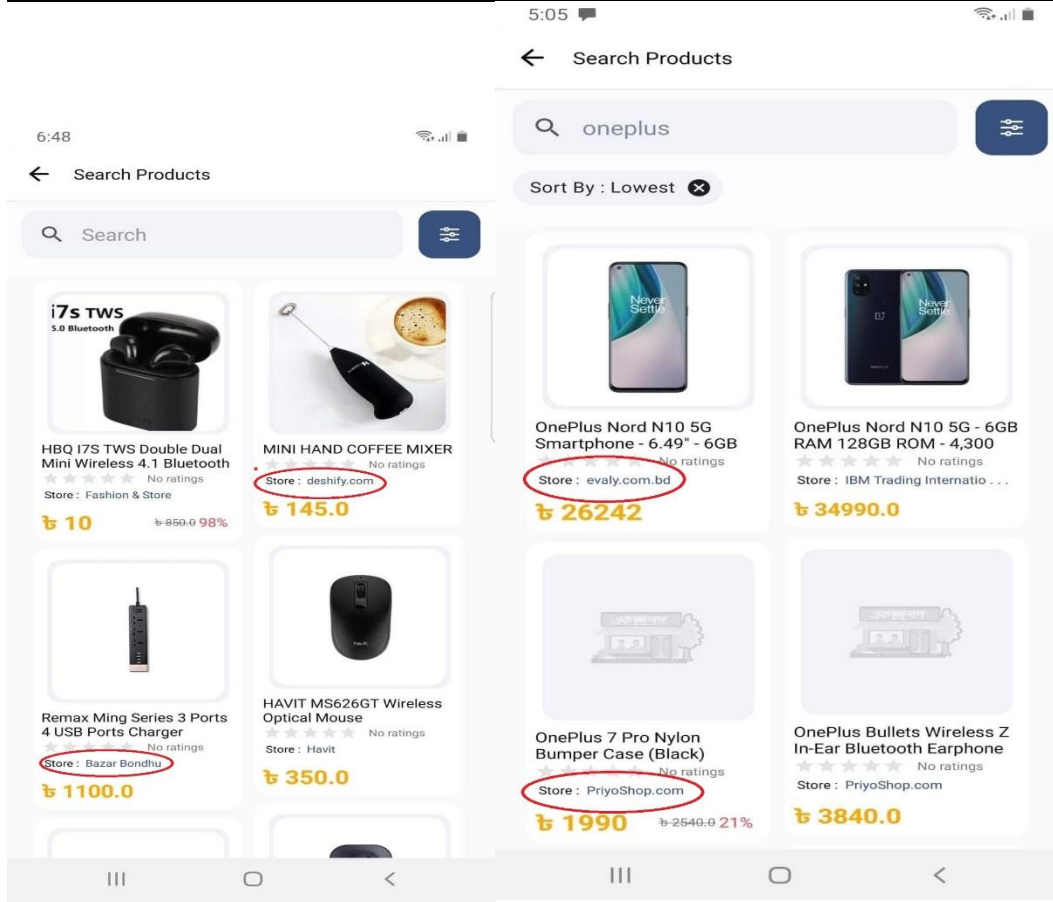

Product icon/image load: Fail

Test Case	Purpose	Steps	Expected Result	Actual Result	Status	Recommendation
Product icon/image load	Product icon/image load	See the category lists icon in home and partners list product image	show all icons and images.	In category list's categories icon in UI and partners list products images are not loaded.	Fail	Have to check category lists and partner priyoshop's product icons/images.

Specific Product Store: Fail

Test Case	Purpose	Steps	Expected Result	Actual Result	Status	Recommendation
Product Store	Product Store	Click the store name in a product and directly go to those store.	show the stores all products .	In a product mentioned the stores name like evaly.com.bd and priyoshop etc but when click these store name nothing shown about the stores. But it should show the stores all products.	Fail	Should have to check and show the stores products.

Inconveniences in Product Page

			
<p>I think, here for Agent registration, there's no need to product search bar. I think it's inconvenience for this.</p>	<p>Here, if any product adds to cart then came out this window. If here click to continue shopping it's directly go to home page which actually irrelevant with continue shopping.</p>		

App Loading:

1. There's huge problem for App Loading.
2. And also app opening takes more time.
3. In every features and options it takes more time from as usual Android app.
4. Overall the app is slow.

Should be Add:

1. In filter section, should be add Discount product and Not Discount product. Then all discount product will show together.
2. For App opening we can use ekshop icon for first time opening app in few seconds just like Daraz app.
3. Ekshop mall, district branding, campaigns etc. should be small icon and after that should be categories.
4. categories are too down. It should have kept starting for eye-catching.
